Efficiency with MLO

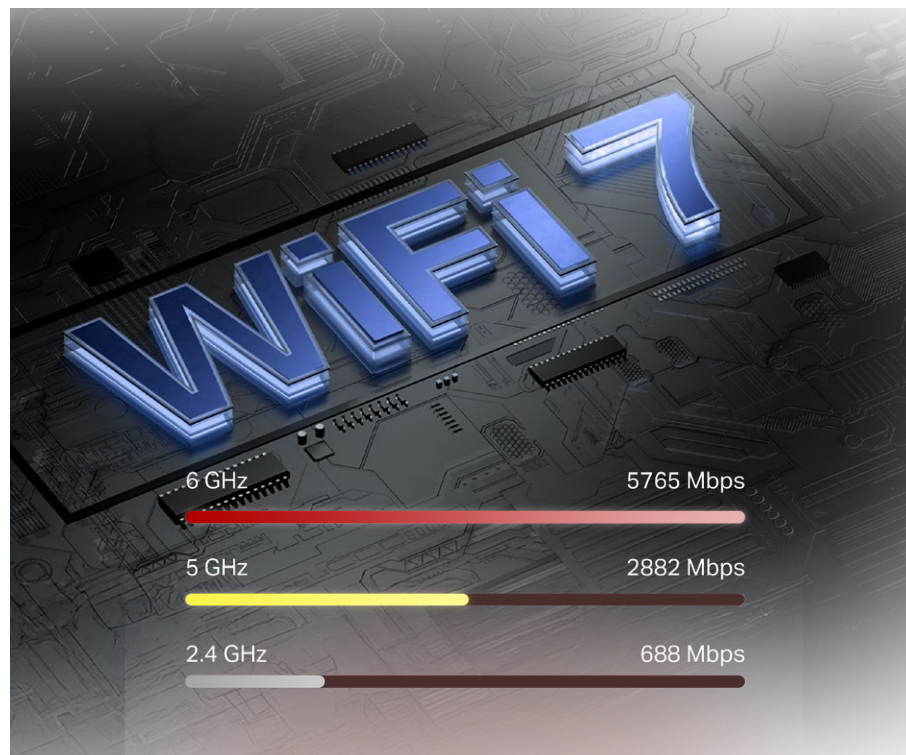

WPA3 for Overall  
Security Protection^

Low-Profile  
Bracket Support

## // Features

### Enjoy the Ultimate Speed of Wi-Fi 7

Enhanced by 4K-QAM and 320 MHz, MA49BE delivers astonishing wireless speeds up to 5.8 Gbps on the 6 GHz band.<sup>‡</sup> MLO lowers latency and optimizes traffic automatically for seamless connectivity. Enjoy unlimited 8K streaming and lightning-fast downloads.\*

### Super Stable Bluetooth 5.4

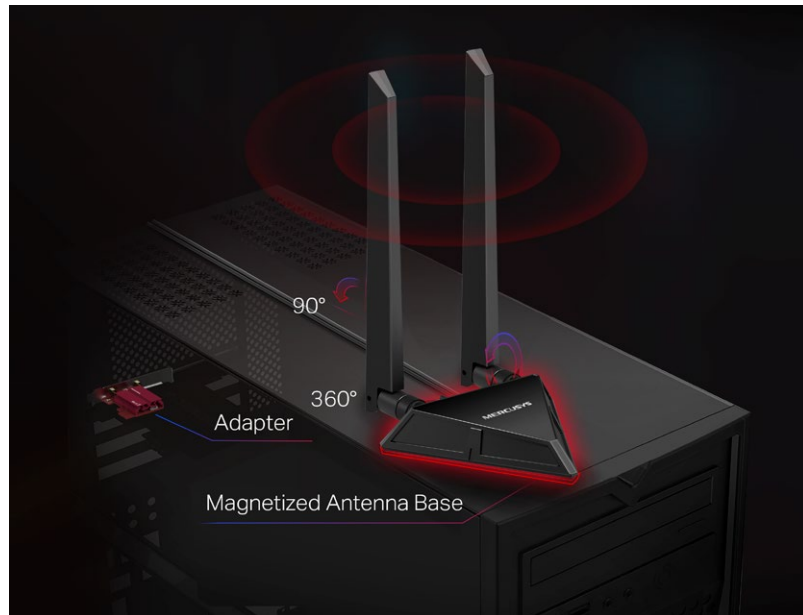

MA49BE equips your PC with the brand-new Bluetooth 5.4 for stable connections, excellent compatibility, and fast speeds, enabling simple, reliable pairing for Bluetooth devices.<sup>§</sup>

## // Features

### Broader Coverage

The magnetized antenna base with two high-performance omni-directional antennas ensures stronger signal transmissions and reception for a faster, smoother online experience from farther away.

### Overall Security Protection

The latest security standard, WPA3, provides improved comprehensive Wi-Fi protection to defend your devices and private information against brute-force attacks.<sup>Δ</sup>

†Maximum wireless signal rates are the physical rates derived from IEEE Standard 802.11 specifications. Actual wireless data throughput and wireless coverage, and number of connected devices are not guaranteed and will vary as a result of network conditions, AP limitations, and environmental factors, including building materials, obstacles, volume and density of traffic, and AP location.  
‡Use of Wi-Fi 7(802.11be), Wi-Fi 6E/6(802.11ax), and features including 4K-QAM, Multi-RUs, 320 MHz Bandwidth, OFDMA, and MU-MIMO requires APs to also support the corresponding features. 320 MHz channels may not all be available in the 5 GHz or 6 GHz band in some regions/countries due to regulatory restrictions.  
§Functionality of MA49BE, such as Bluetooth 5.4, may be restricted on some computing systems and platforms. Please strive to update the device's driver for feature compatibility.  
ΔUse of WPA3 requires APs to also support WPA3.  
\*Use of MLO requires your router or APs to support the Wi-Fi 7 standard with MLO enabled. Your Windows 11 operating system must also be updated to version 24H2 or later.
